Siamese Fighting Fish.
The government of Siam realizes a considerable revenue from fish fighting by licensed exhibitions where fish are matched against each other at sporting events. The fighting fish are found in the waters near there, and while not large, they are ferocious and fight to the death.

Fordson

170,000 Now in Use

Built with over strength in every part; built to withstand the constant strain of heavy duty; tested out under every condition of farm and belt work, and put to actual test by 170,000 owners during the past three years—the Fordson Tractor has lived up to every claim made for it.

No matter what the farm task—whether plowing, disk, harrowing, threshing, baling hay, grinding feed, pumping water, sawing wood, pulling stumps, filling silos, or any of the many other jobs around the farm, the Fordson will not only do and do well, but quicker, easier and at less expense.

There are so many different time and money saving ways in which the Fordson can be used that you owe it to yourself to get the facts. Come in and see the Fordson, or write or phone for the information.

WILLYS-KNIGHT

At a Low New Price of

\$1375

This car of refinement and quality is now within the means of those who have considered such a car beyond their hopes

It combines, in addition to the advantages of other fine cars, all of the advantages of the Knight type sleeve-valve motor.

This Willys-Knight motor actually improves, grows more powerful, with use—a quality which distinguishes it from all other motors.

It requires no adjustments. It is more flexible—and it always operates quiet.

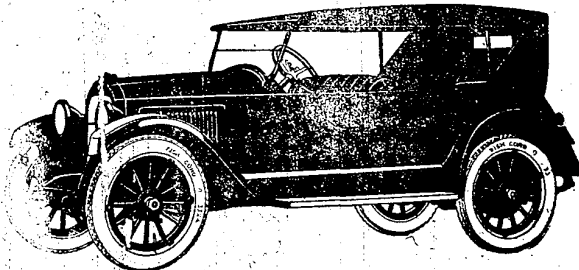

It is more powerful than any other motor of equal size, and because of this, the Willys-Knight car consumes less gasoline than any other car of equal power and weight.

These important advantages added to the beauty, economy, road comfort and extraordinary long life of the Willys-Knight car explain the enthusiasm of more than 50,000 owners.

Topping reduced \$150; now \$1375. Roadster reduced \$125; now \$1350
Coupe reduced \$320; now \$1875. Sedan reduced \$300; now \$2095

Batteries Wear Out for Two Good Reasons

Every battery has two kinds of wear—the natural slow wear due to use, and the more rapid wear that comes from abuse.

Keep the proper amount of water in your battery by putting in a little every two weeks. Test with the hydrometer to make sure there's enough charge. Come in to Battery Headquarters at the first faint sign of trouble.

Then your battery will wear out slowly and gradually, giving you uninterrupted service at lowest cost per month and per mile.

MORE WORK IN A DAY
MORE JOY IN YOUR WORK

An electric washing machine will greatly shorten wash day for you, and will mean cleaner, longer wearing clothes. Ask your neighbor who has one of these great labor savers what her electric washer means to her.

Then come in and let us demonstrate how simple they are to operate.
