The Capital's Legacy.
When Ja-my touder years I was taken to the mattine, usually the most thrilling feature of the spectacle to was the scene depleted on the drop-currelm. Directly I was scated—In the body—and had had my hat taken off and heen told not to wriggie. I vaulted airly over the unconscious audience, over an orchestra engigled in tuning up, and was lost in the marvelous landscape of the drop-currelm. The adventures which I had there put to shame any which the raising of the currelm permitted to be seen upda the stage.

I had never hoped to recover in this prosade world my long-lost paradise of the drob-currelm. Un morning revealed fit to me here on Leeward island. Here was the feathery foliage, the gushing springs, the gorgeous flowers of that enchanted land, And here were the soft and integring her function of the drob consideration of the drob consideration. The drob consideration of the stand is the peak sides less than a sea to the underlying rocky slederon. Aunt Jane had been dreadfully alarmed by the plgs, and wanted to keep me inmured in the cabin of nights so that I should not be eaten. But nothing less than a Bengai tiger would have driven me's such extremity.

In a factory devoted exclusively to manufactu-ing Goodyear Tires for small cars, the two tir-illustrated above are made.

One is the famous 30 x 3 1/2 Goodyear All-Weather Tread Clincher.

By long wear, superior traction, freedom from skidding, and ultimate economy, the Goodyear All-Weather Tread has won unquestioned leadership.

As a companion to this tire there is the Goodyear 30 x 31/2 Cross Rib.

Built of the same high grade Egyptian fabric and with a long wearing but differently designed tread, this tire offers unusual value.

Over 5,000,000 of these tires have been sold in the last five years.

Their quality and serviceability have proved to thousands of motorists the folly of buying un-known and unguaranteed tires of lower price.
