

Your money back for the asking

Just think of losing \$191,000 in 23 days. Worse yet, this sum was dropped in a company which made the ridiculous promise of a return of 52 per cent. Where your savings are concerned think first of their safety. You may be absolutely sure that there is a big risk involved when an unreasonable rate of interest is promised. This bank pays only a reasonable rate of interest on savings deposits but guarantees their return for the asking.

Hours instead of Days

On Fordson farms, hours instead of days are required for the plowing. Late Spring with the usual rush of field work does not make the Fordson farmer wonder whether he can get all the crops in, and still do the work in the way that will insure a fair chance for the crop to mature.

And on the Fordson farm, the Oliver No. 7--the special plow for the Fordson--is as dependable a part of the equipment, as the red Oliver horse drawn plow has been for over sixty-five years.

Built to meet the exact requirements of the Fordson, the No. 7 operates at greatest efficiency with the tractor. On thousands of Fordson farms since the first tractors went into the service of agriculture, the Oliver No. 7 has proved its value.

For conditions making desirable a sulky, the No. 3 sulky with either turning or brush base is supplied.

The price at which complete Fordson farming equipment can be purchased is surprisingly low.

For practical demonstration and full information, see the nearest Fordson dealer.

Oliver No. 7, two bottom gang, chilled, combined rolling coulters and jointers, \$72.00

Oliver No. 7, two bottom gang, steel or combination, combined rolling coulters and jointers, \$75.00

For plain jointers taken instead of the combined rolling coulters and jointers, a reduction in price is made.
