

One of the tires shown above is the famous 30x31/2 inch Goodyear All-Weather Tread Clincher. By long wear, superior traction and freedom from skidding, and low final cost, this tire has won unquestioned leadership in its field,

Alongside it is illustrated its companion, the 30 x 3½ inch Goodyear Cross Rib.

Both these tires are built in a factory devoted exclusively to manufacturing Goodyear Tires for

More than 5,000,000 of the Goodyear non-skid tires have been sold in the last five years.

Built of the same high grade Egyptian cotton fab-ric that goes into the All-Weather Tread Good-year, with a long-wearing but differently designed tread, they have given remarkable service.

Their quality and serviceability have proved to thousands of car owners the folly of buying unknown and unguaranteed tires of lower price. Ask your Goodyear Service Station Dealer to explain their advantages.
