

Business Calculation

It is often convenient to have figuring done by a third party. This bank is always ready and willing to do it. This service is especially helpful to farmers. We are often called upon to figure grain and live stock tickets, accounts of sale, interest, invoices, and to make many other calculations which come up in the course of every day business. We make no charges for this service and want the farmers and our other friends to feel free to call upon us whenever we can help them in these and similar matters.
