

## PUTTING MOTHER IN WRONG

Small Boy Quick to Observe Point That Might Enable Him to Escape Punishment.

It was cherry time and Richard insisted on running out in the orchard and eating the half-ripe cherries. His mother told him how much better it would be for every one if he only left the cherries until they were ripe, so they could be enjoyed. She also warned him she would punish him if he went to the orchard again.

day!"—Exchange.

**Bathers Took to Raincoats.** The White Star liner Majestic, the world's largest steamer, arrived in New York the other day from Southampton and Cherbourg on her third voyage to America.

Voyagers described the weather on the other side as wet and cold. One passenger said that at Brighton on the English coast, where a carnival was in progress, the bathing belles paraded in oilskins, sea boots and sweaters. The reporter solemnly advised that the king and queen of the pageant were supplied with hot frog to ward off the dangers of an attack of pneumonia in the pelting rain.

**'Twas Ever Thus.** As a party of tourists motored through the eastern part of Greenacres recently, a small car, loaded with five youngsters, slipped up behind the Indianapolis News reporter. As the smaller car was forging ahead one of the boys lit a giant cannon cracker, and tossed it behind the big car. It went off with a loud report. There was a screeching of brakes as the big car came to a halt, and the tourists piled out to hunt for the blowouts. The youngsters passed merrily on.

**His Inference.** Tobe Smithers and Gabe Gunshun of the Mount Piggy region of the Ozarks were guests of a hotel in the Big Burg lately. Some time after the boys had retired for the night they were rudely awakened by the fire chief's car racing past with its siren screaming in an unknown tongue.

"What the blue heck was that?" cried Mr. Gunshun.

"I 'd know posistly," replied Mr. Smithers, "but I reckon some feller has stayed out too late and his wife is hunting him."—Kansas City Star.

**Don't Kill Bullsuckers.** Kansas farmers find that a bullsucker in an alfalfa field is worth at least \$2.50 a month, says the Scientific American, for an acre harbors on an average, six gobbers, which damage the crop to that extent. One adult bullsucker keeps an acre free of the pests. The bullsucker is harmless, feeds also on rats and mice around barn or granary, and deserves the protection of the farmer.

**Contemporary Corrected.** From the Fashionable Press—"When the gay Bard of Avon fondly inquired 'What is so rare as a day in June?' he was probably thinking of the smiles and tears and tenderness of the wedding day."

Not at all, brother, not at all! He was probably thinking that "That's a mighty good line. Wish I'd thought of it before Lowell did."—Boston Transcript.

**Subsequency.** "I'll contribute a million dollars to your campaign fund," said the enthusiastic friend.

"No," rejoined Senator Sorghum in tones of gentle regret. "You mean well, but you are one of those chaps who inadvertently make an election an insignificant matter compared to the subsequent investigation."

**The Profligate.** "So there you go, spending your last dollar," "Yep; the poor little thing is so darned lonesome!"

**Breaking It Gently.** "Blaug's pet dog has been run over; she'll be heartbroken."

"Don't tell her abruptly."

"No, I'll begin by saying it's her husband."—Boston Transcript.

**Iron Mountain—While his mother and members of the family looked on in horror to give assistance, Arnold Meath, 13, son of Mr. and Mrs. Henry Meath, was drowned in the Kalamazoo river. **Pontiac—W. B. Stuart, Bolding carpenter, in circuit court pleaded guilty to a charge of setting fire to a house in which he was sleeping, after being arrested after investigation by fire men showed a quantity of oil soaked papers in the place, and that insurance had been taken on furniture there although the house was empty. The court ordered sentence.**

**Grand Rapids—Felix Marcellus, in whose home officers say they found a quantity of liquor, has been sentenced by Superior Court Judge Leonard D. Hardier to the county jail for 30 days. His wife, Sophie, said to have barred the way of the officers to the booze room, contending she was merely guarding the hiding place of her pocketbook, was fined \$50 and costs.**

**Mt. Clemens—Tales of wild and wondrous life in Detroit girls, residents at Lakeside summer cottages, entertained Detroit youths with wine and song, led to the Macomb sheriff's office preparing to make a raid on the place. The week-end parties, which knew no bounds of conventionalities, authorities say, were found to be just over the border into St. Clair county. Police of that district will be asked to act.**

**Ypsilanti—The eagle must quit screaming and start scratching," William Cameron, editor of the Dearborn Independent, told Ypsilanti Kikwanians at their weekly luncheon here. Mr. Cameron denounced capital as wrong. "The coat strike was created artificially," he declared. "The country has more coal than it needs. If we could only get it. The trouble confronting the nation today is not their political nor economic, but moral."**

**Lansing—The Ingham county circuit court has been petitioned by the Michigan State Telephone company for a stay of the public utility commission's order of July 1, approving consolidation of the company's interests with those of the Citizens' Telephone company. The Michigan State Telephone company asks that the order be declared void, and that no further orders be issued until the value of the Citizens' property can be estimated.**

**East St. Louis—Police officials, it is said, are wondering what is going to happen at the next terms of circuit and federal court when they are called upon to produce moonshine whiskey as evidence in a number of cases. The strong box which contains all contraband liquor and which reposes in the women's portion of the city jail was ransacked, and much of the evidence is missing. Two women, Hattie Donnelly and Mary Belleau, serving sentences for being drunk, were drunk again after having broken into the box.**

## THE KITCHEN CABINET

We never know how much one loves till we know how much he is willing to endure and suffer for us; and it is the suffering element that measures love.—Henry Ward Beecher.

## DINNER IN THE OPEN

During the hot weather there is nothing that changes one's whole attitude toward life in general like a day spent out of doors. When possible pack the basket and family into the car and go away to new scenes. But if one has a shady nook in the house grounds a meal may be enjoyed out of doors with little planning.

For a regular outdoor meal, choose potatoes, corn and melons will go well with most people. Steak is delicious, too, cooked on a heavy sheet iron over coals or broiled over the coals which a wire broiler will do. Another good dish, which can be easily prepared, is a hot cheese sandwich, well liked. Butter bread, place a piece of cheese, sandwich fashion, between the slices and brown in butter on both sides. Serve hot with sliced tomatoes, onions and cucumber.

Brown bread spread with butter and chopped green pepper with a little minced parsley makes a nice sandwich.

Potatoes boiled in their jackets may be cooked at home then fried in butter and served piping hot with small green onions.

There are many number of good salads which are easily carried or the dressing may be carried in a fruit jar and the salad mixed when the meal is ready to serve.

Any pie, which carries well always finds an appetite to meet it.

Deviled Eggs.—Cut hard-cooked eggs in halves, put the yolk through a sieve, adding mustard, cayenne, butter, and salt to taste. Fill the hollow, rounding it well, with the mixture. Wrap in waxed paper as they carry better, packed in a shallow box.

Sponges cakes make a delicious dessert. Bake in a 10 inch pan. Fill the top and fill with whipped cream or berries mixed with sugar and whipped cream. The cream and berries may be prepared at home and carried in a sealed jar.

The man who is original and progressive in his methods, who leaves the beaten track to push into new fields, who is constantly on the alert for the slightest improvement in his line of business, is the man who succeeds.—Orison S. Marden.

## WHAT TO EAT

Peaches are called the children's fruit, as it does not disagree with most of the little people.

The ripe, juicy fruit sliced and served on a platter makes a dish that the little folks like. Peaches and cream with hot baking powder biscuits, will satisfy the most exacting.

He is indeed favored who can pick and eat the delicious fruit right from the tree; then its melting sweetness is at his lips.

Peach ice cream is one of the most delicious frozen dishes it is possible to make. Cut up peeled ripe peaches and put through a ricer, enough to fill a pint measure, add the juice of a lemon and six tablespoons of sugar, turn into a freezer and freeze; or, if you use a cream, or rich milk to do. Freeze as usual, remove and pack in a brick mold. Serve unmixed, sprinkled with powdered sugar and garnished with sliced peaches. Peaches are delicious baked and served with sugar and cream.

**Peach Whip.**—Beat the whites of three eggs until stiff, add three tablespoons of powdered sugar and beat until smooth; add six ripe peaches which have been pressed through a sieve, beat until thick. Serve in tall sherbet glasses with a sprinkling of lemon juice over each.

**Peach Gâteaux.**—Cut rounds from sponge cake, place on small plates and put a halved peach on each; cover with whipped cream sweetened and flavored with almond. Sprinkle with chopped blanched almonds and serve.

**Peach Pie.**—Bake a rich pastry shell and fill with sweetened sliced peaches. Cover with a meringue and dot with marshmallows. Set in the oven to brown the meringue and serve cold. Another similar dessert which is most delicious is prepared thus: Cut cake baked in sheet in oblong or diamond shape, cover with peaches sliced and sweetened, dot with very fine top with a meringue and brown in the oven, or top with sweetened and flavored whipped cream.

**Veal Loaf.**—Take three and one-half pounds of finely chopped veal, mix with three beaten eggs, a grated onion, a half teaspoonful of salt, a half teaspoonful of pepper, a tablespoonful of thyme, a dash of cayenne and a tablespoonful of onion juice. Add three tablespoons of cream, three crackers rolled, and mix in a long loaf; cover with thin slices of salt pork and bake an hour in a moderate oven. This is good sliced for sandwich filling.

## Children Cry For Fletcher's CASTORIA

## Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your *ailing* child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

## ACCOUNTING FOR BLACK GARB

Simple Reason Why Girls in Railroad Refreshment Room All Were Robbed in Same Colors.

The train was late, even later than is usual on this particular line; and as they crawled through one station after another weary traveler was heard to exclaim:

"What a villainous station this is! They try to irritate one on purpose. Look at those girls in the refreshment room! Why do they dress them all in black?"

"Don't you know," said the fellow passenger in a most solemn tone of voice, and with a look of awe on his face.

"No," replied the curious and fretful traveler.

"Why," said the other, "because they are in mourning for the 'late train'."

**A Presbyterian Next Time.**

Little Mary Lou, aged six, had always been an ardent Methodist, but was one day persuaded by a small playmate to visit a Presbyterian Sunday school. She was enthralled by the new surroundings and was especially infatuated with the charming young teacher who so cordially invited her to come again.

"I'd like to," said Mary Lou wisely, "if I didn't have to go to my own Sunday school. But do you know, if I had my life live over again, I just believe I'd be a Presbyterian."—Kansas City Star.
