# MRS. LULA VANN FULTON, ARK.

Suggests to Suffering Women the Road to Health

13. Fulton, Arkansas.
Its this sort of praise of Lydia E. Pinkham's Vegetable Compound, given by word of mouth and by letter, one woman to another, that should cause you to consider taking this well-known medicine, if sider taking this well-known medicine, it you are troubled with such symptoms as painful periods, weak, nervous feelings, miserable pains in your back, and cannot work at certain times. Here is a woman who is so grateful and glad to be relieved from a painful and nerve racking physical condition that she wishes to tell all sick women.

A Man of Resource.

Wife-John, I must have some new clothes. I'm sure the entire neighbor hood knows my present wardrobe by

heart.

Hub-But it would be cheaper to move to a new neighborhood, wouldn't

"Now shall we adopt a resolution?"

Are are also see, coolin naccii diverce. At a Lakewood dinner party a young divorcee was admiring Mrs. Gould's splendid jewels.

"Oh, that's your wedding ring, isn't it?" she said. "How old-fasioned it looks, doesn't it? In the past they made them so much wider and heavier than they do now."

"In the past, you see," said Mrs. Gould, "they expected them to last a lifetime."

# **MAKING LEATHER** ON SMALL SCALE

There Are Times When Farmer Finds It Profitable to Do His Own Tanning.

DETAILED DIRECTIONS GIVEN

suggestions as to Usual Practices
Rates and Methods of Payment Are
Made in Circular of Department
of Agriculture.

(Prepared by the United States Department of Agriculture.)

Tanneries are equipped to make all the leather the country needs and can the leather the country necess and can make better leather more economically than the farmer can, but there are times when the producer of hides finds that the margin between the price paid for the raw material and the price nake-1 for finished leather is so great

Removing the Flesh That Was Left On in Improper Skinning.

On in Improper Skinning that he determines to do his own tanning. For example in certain large sections of the country a farmer can hardly size away the bless he has, yet bother in small pieces costs him from \$1 to \$1.50 a pound. To help him in such emergencies the United States Department of Agriculture has just issued Department Circular 250, Home Tanning, which gives detailed directions for making leather for various purposes.

| Best Way of Handling.

Just issues Department Circums 250. Home Tanning, which gives detailed directions for making leather for various purposes. Best Way of Handling.

With the sinance of this publication in the present season who had been also as the control of the state o

leather in small quantities it is usually possible to buy at a comparatively low price by taking more at a time. If a side of leather is bought, instead of a couple of pounds at a time says the circular, it is often possible to buy it at only 10 to 20 per cent above wholesale prices.

### STATES ETTING WAR MATER AL FOR ROADS

All Sorts of Supplies and Equipment Delivered.

Texas and New York Lead With Near ly \$8,000,000 Worth and Other States Go. Over Million Dollar Mark—Lots Left.

Mark—Lots Left.

(Prepared by the United States Deskitment Schariculure).

Surplus with material valued at Silog,773,980 w/s delivered to the states for use in road construction up to July 1, reports the bureau of public roads. United, States Department of Agriculture, The material, which consisted of all, sorts of supplies and equipment sylable for road buildings for which i War department had no further. Ed, was distributed on the same basis as monetury federal aid.

In value of material delivered, Texas and New York lead with nearly SS-000,000 worth of material, and every state with the exception of five of the smaller ones received supplies valued at over \$1,000,000.

This material has been of great valued at over \$1,000,000.

This material has been of pread the real shardly a county in the United States in which some of it has not been used.

in which some of it has not been used.

Probably of greatest value has been the 23,327 motor vehicles distributed, consisting, of 24,752 trucks and 4,573 automobil 3, and in addition a large automobil 3, and in addition a large number of tractors.

The system of distribution has been so arranged that the states requisition only material useful to them. In some cases, they fall behind in altorments in order to wait for uncertain particularly desired. Many of the states have shown great ingenuity in conditioning worn equipment, using war material to equip shops in which other war, interfal is made suitable for use.

There is still a large quantity of ma-

for use.

There is still a large quantity of material in this country for distribution. This will be further increased by material used by the army of occupation in Germany soon to be brought back.

### NEED PERMITS FOR BANDING

Biological Survey is Anxious to Have as Many Collaborators as Possible for Success.

(Prepared by the United States Department of Agriculture.) (Freared, by the United States Department Federal) permits are necessary in all cases for bird-handing work, says the bloogied survey of the United States Department of Agriculture. The surveys is anxious to have as many callabora-tors as possible, but success depends largely on complete cooperation be-tween officials and collaborators.

State permits also are required in many cases. Some states issue them

without charge to collaborators, when notified by the biological survey that the applicant has a federal permit. Others have taken the position that the federal permit is sufficient authorithe Each operator should be informed as to the attitude of his state game officials and be prepared to co-operate with them at all times.

NO DOUBT ABOUT GRATITUDE

Any Youngster Will Understand That Poor Boy Was Deeply Appreci-ative of Tommy's Gift.

ative of Tommy's Gift.

Per some time Mrs. Caraway had been endeavoring to Instill into the Chempt Desirved,

"What's that?" cried a tourist to the chem's of her youngster, Tommy, aged ten, the sentiment of generosity, which it seemed to her, was not naturally present. In this relation she had been specialty careful to commend to Tommy's consideration the son of a poor family in the neighborhood.

One day Tommy came home radiant. "Well," he said to his mother, "I gave that poor boy half of the box of early you bought for me." To are dear little boy," she said. "Was the poor boy grateful?" "Yes, ma'num," said Tommy; "he was grateful, all right. He came round to the school yard and let me lick him where everybody was looking on."—Harper's Magazine.

Arkansan Could Easily Afford to Treat Such Amateur Shooting With the Contempt Deserved,

After a man's sweetheart has stepped on his foot he is not to lose the notion she is a fair.

# Maybe that hill is not there, after all—

VERY often the hill we seem to be climbing is made out of the common mistakes of diet which starve tissues and nerves and slow down energies.

How smooth and level the path seemed to be when we were younger.

Simple, natural food may level that hill to a smooth path again. Why not try it?

Begin today with a dish of Grape-Nuts with cream or milk —and fresh or preserved fruit added if you like.

Keep on with this crisp, deli-cious, strengthening food in place of heavy, ill-assorted, starchy breakfasts and lunches—and see if the old-time zest and speedon the old-time level path doesn't come back again.
