PEUGEOT

505, THE ONLY CAR IN ITS CLASS "THAT MAY STILL BE IN TUNE WITH THE TIMES TEN YEARS FROM TODAY." —Autoweek

The new 505 Peugeot is truly a car that doesn't require any compromise. From the sleek lines outside to the brilliant planning inside, the 505 is designed for today as well as tomorrow.

Everything about the car is built for the driver. The perfectly natural angle of the steering wheel. The expansive windshield that offers you a view of the road instead of a view of the hood.

The appointments are superb. An international dashboard with simple symbols rather than words lets you "read" everything at a glance.

The placement of the controls so efficient that the driver has merely to gesture, rather than move.

For the driver and his favorite passenger, there are orthopedic bucket seats with back headrests. The seats adjust to any position. The headrests adjust as well.

There is more than enough room—head room, leg room and seat room—for the driver and four passengers. And the kind of interior space that doesn't make you feel like you've been "downsized."

The ride itself is extraordinary. Compliments of a European suspension system that protects you from the imperfections of the road.

And thanks to Peugeot's patented extra large shock absorbers which soften the bumps.

The handling is effortless. In this case, the lightness of the car lending itself to the ease of the driver. (Power-assisted rack-and-pinion steering helps, of course. So do power-assisted disc brakes on all four wheels.)

The 505 is loaded with a 4 speed manual transmission and delivers an impressive EPA estimated 29 mpg highway, and an estimated 29 mpg.

The 505 gasoline versions equipped with a 5-speed manual transmission combined with a Bosch K-jetronic fuel injection system to make it one of the most responsive automobiles you've ever driven.

Add to all that the fact that at Peugeot a car is built, not merely assembled. And tested individually. And what you get is a car that isn't just right for ten years from now. It's just right for the years in between.

Peugeot 505 is a 4 door transmission. Information. Compare the listed price with the actual price of the car. You may get a different price. Depending on the model, load, and accessories. The actual price may be higher than the listed price.
