

Restaurant group honors 12 at OCC

The Michigan Restaurant Association has awarded 12 Oakland Community College food service students scholarships for the winter and spring semesters.

Applicants were judged on need, scholastic record, and experience in the food service industry.

Scholarship winners, all from OCC's Orchard Ridge campus in Farmington Hills, include: Gari Glaser, Southfield, \$250; Kevin Holmstrom, Farmington Hills, \$200; Yu Liu, Orchard Lake, \$200, and Brian Tanner, West Bloomfield, \$250.

Sprouting

A 10-page brochure on sprouting may be obtained by sending a self-addressed envelope with three first-class postage stamps and 50 cents in coin to the International Food Storage Association, P.O. Box 249, LaVerkin, Utah 84745.

For those of you with a taste for the finer things...

INVEST IN A MASTERPIECE

We are at a time when it is mandatory to spend carefully. People are more conscious regarding quality than ever before. No longer can we afford to be price-wise and cost-foolish by spending on second rate goods or services.

There has never been a more appropriate time to invest in a top quality grand piano. Not only will the lives of everyone in the home be enriched by such an investment, but the rapidly increasing value of such a fine piano makes the inflation conscious consumer very shrewd indeed.

It is a perfect time to provide yourself with a piano that will offer you pride, prestige, beauty, accomplishment and ever-increasing dollar value.

The folks at Professional Keyboard will show you how easy it is to own your personal masterpiece now.

"Where quality, service & education come first"

WSU research

The Paralyzed Veterans of America presented \$24,000 for spinal-cord research to the Wayne State University medical school. At the check presentation are Michael Delaney (left) of Dearborn, national PVA president; Thomas Bonner, WSU president; Dr. Harry Goshgarian of Troy, who will conduct the research; and George Jackson of Birmingham, Michigan PVA president. Goshgarian, assistant professor of anatomy, is working on ways for the brain to communicate to the lower muscles once the spinal cord has been injured.
