

ALLIED SUPERMARKETS

*..... proud to be a
part of your vast
growing community.*

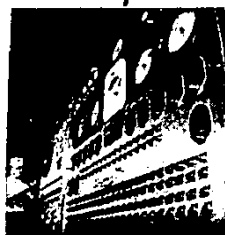

**GROCERY
WAREHOUSE**

Products stored in quarter-mile-long Grocery and Non-Foods Warehouse are identified by number for maximum accuracy. Same organization in each warehouse simplifies order working.

**PERISHABLE
WAREHOUSE**

In Produce Section of Perishable Warehouse, food is kept under precise climate control. Produce is humidified, kept cool to maintain freshness, flavor, avoid shrinkage.

**DAIRY
PROCESSING**

Control Board in Dairy Section enables operator to automatically select desired milk product, switch into packaging line. 129,000 gallons of raw milk is under controlled, cool conditions.

**FROZEN FOOD
COOLERS**

Frozen Foods Cooler preserves food at ten degrees below zero. Another area handles ice cream products at forty-five degrees below zero. Freezing tunnel connects with Dairy, Bakery.

**MEAT
CENTER**

Hanging Cooler can accommodate 1800 quarters of beef on 1975 linear feet of hanging beef storage. Skilled meat cutters saw, bone and trim meat into basic cuts for retail outlets.

**BAKERY
COMPLEX**

Donut Line in Bakery Complex can produce 27 varieties such as hand cut glazed and fruit filled varieties, cake, old fashioned, iced, sugared and nut coated.
