

Witchcraft Is A Sin, Say The Scriptures

'The Sin Of Witchcraft'

EDITOR:

We know that your desire and goal is to print facts as they are. You do not wish to mislead anyone. As a publisher, you have an awesome responsibility to all who open-mindedly read what you print.

We are appealing to your integrity as a leader in this community, and to your honesty as an individual. The article written by Tim Richard called "I'm a Witch," says Happy Mother of 4" was presented as if you and Mr. Richard totally and without reservation accept all of Mrs. Kucio's claims.

None of her statements were questioned; on the contrary, it was all taken as a fun, happy, delightful venture into a new and principally unexplored area. We believe you should have presented her statements for what they were, that is, not necessarily true, in fact, erroneous.

So erroneous that, in your tolerance of her way of life, you allowed the Christian Bible (as she called it) to be grossly and dangerously misrepresented. In printing her views without qualifying them, as she said, "There's nothing in the Christian Bible that conflicts with witchcraft." Do you have any respect for the Christian Bible? We sincerely hope so.

If there are a few quotations from the Bible itself that set forth its view on witches and witchcraft:

"Thou shalt not suffer a witch to live." Exodus 22:18.
"There shall not be found among you any one... that useth divination, or an observer of times, or an enchanter, or a witch." Deuteronomy 18:10.
"For rebellion is as the sin

of witchcraft." 1 Samuel 15:23.

"He used witchcraft, and dealt with a familiar spirit, and with wizards: He wrought much evil in the sight of the Lord, to provoke Him to anger." 1 Chronicles 33:6.
"Witchcraft, and such like, of the which I tell you before, as I have also told you in the time past, that they which do such things shall not inherit the kingdom of God." Galatians 5:20.

...and murderers, and whoremongers, and sorcerers, shall have their part in the lake which burneth with fire and brimstone: which is the second death." Revelation 21:8.

Witchcraft Abomination!

EDITOR:

In reply to Witch Gundella's statement "There's nothing in the Christian Bible that conflicts with witchcraft, I am" to state the Bible does condemn witchcraft. The Lord God, speaking through Moses, branded these practices as abominations!

In the New Testament, Paul condemned traffickers in occultism. Seeking spiritual assistance by any means except from God himself is SIN. It is idolatry or sorcery.

Witchcraft and mysticism are always a sign of decay. It is a pathetic revelation in so-called Christian America to see a rise in the occult. Spiritually adrift multitudes are grasping at any straw to save themselves from sinking into a meaningless life.

He's No Fan Of Hoffman's

EDITOR:

This "very much a member of the establishment" 35-year-old corporate employee M.A. graduate of a leading business school, wishes to protest the actions of Judge Hoffman in Chicago.

If he is incompetent by reason of senility, then he has violated every ethical principle of judicial conduct. The actions of the defendants and their counsel were initiated and prodded on by Judge Hoffman's obvious gross bias and unconscionable orders. The contempt charges are nothing short of political repression.

This, along with the John Sinclair case, is an example of the rigid dogmatic shortsighted stupidity which violates human dignity and thus will surely lead to further alienation in our society.

I appeal for the release of these political prisoners.

Wayne Millage Gets Support

EDITOR:

On March 23, the citizens of the Wayne Community School District will be asked to vote for a renewal of 21 mills to run our schools.

I hope everyone will show that they are interested in their children and all children's

education by supporting this renewal.

Even citizens whose children are grown or those who do not have a family should realize the importance of all children receiving a good education.

Everyone must be reminded that this is a renewal, not an increase in mills, which means they want to continue operating schools as they have in the past year.

Being new to the Wayne Community School system, I have been impressed by all the beneficial classes and projects they have for children at all grade levels.

Let's all of us show our interest in every child receiving a quality education by voting for this renewal on March 23.

Whose Son Has An Extra Coat?

EDITOR:

An open letter to parents: Is your son wearing a nice new light blue CPO jacket? It has a navy lining and it is a size 20.

My son liked it also, but your son pushed him around and forced him to give it to him one evening last week.

It happened in Ann Arbor Trail near Middle Belt. After the theft, your son turned on Hugh Street.

It sure was a cold night to walk home without a coat. Didn't you question your son or wonder where it came from? Boys do make mistakes, but parents should try to help them and give them some guidance. Allowing him to wear this jacket isn't doing this for him.

Fox Hunters Get Results

Very good fox hunting and mixed reports on ice fishing came from Oakland County last week.

Hunters with dogs had considerable success the last two weeks, according to state conservation officers.

Cass Lake had good bluegill and pike fishing, the best on Gerundegut Bay in the state park area.

Such popular spots as Lakeville, Oakland, Woodbury, Pontiac and Lake Orion had poor reports. Pike hit rainbows at Lakeville and Lake Orion.

WINKELMAN'S HAS remodeled the interior of its Wonderland store. (Evert photo)

'New Winkelman's' Awaits Shoppers

A completely remodeled, refurbished and enlarged Winkelman's awaits shoppers in Wonderland Shopping Center, Plymouth and Middle Belt Roads.

One of 64 fashion specialty stores, Winkelman's Wonderland store combines elegance, convenience and femininity in its decor, designed to make shopping a more pleasant experience, according to store manager Patricia Gutierrez. No coat figures were revealed.

Dominant colors throughout the store are shades of pink with accents of crimson, olive green and yellow.

WALL COVERINGS in the sportswear area are done in shades of green with magenta accents. A colorful "Daisy" wall covering in a lime green on white vinyl is a gay touch to the accessory and lingerie department.

In the ready-to-wear salon, wall coverings are done in a luxurious fabric called "Esplanade" — featuring a stark

white print on a bright olive green foil. Draperies in the fitting rooms are done in a "Ticking stripe" fabric — white with olive stripes.

All chairs throughout the store have been upholstered in bright colored vinyls, including lemon yellow, pink and orange.

A specially designed olive wool carpeting covers the entire sales floor.

ADDED SHOPPING convenience will come in the ex-

pansion of the accessory island to provide greater merchandise exposure with a resultant increase in space of over 30%.

Urban Training Courses Slated

Wayne County Community College has pushed back the registration deadline on an urban technology program geared to provide technical know-how to community organizations, civic groups and block clubs around the county.

According to Art Neal, director of the urban technology program, registration is open until the end of February and classes will continue until the end of June.

Neal, a Detroit urban consultant, said the curriculum for the program grew out of needs expressed by members of various community groups during the first semester.

THE URBAN TECHNOLOGY program, which is part of the school's vocational and technical educational division, is designed to provide training with the technical background to deal with federal, state and local agencies, said Neal.

"Another function of the program," he said, "is to train paraprofessional personnel to work with these organizations."

Full college credit which is transferable to any university

in the state or applicable towards a two-year degree from WCS will be granted for course work, Neal said.

Typical of the four urban technology courses offered this semester is a class in the "housing development process." According to Neal the course is designed to "expose the students to the physical and economic processes for housing development—including the various funding grants available and the restrictive guidelines" placed on housing construction by federal and local agencies.

THE COURSES WILL be offered at all 26 Wayne Community College centers pending enrollment. Registration is at the college's central office located at 4612 Woodward Ave., Detroit.
