

## Rev. Andree appointed college vice president

The Rev. John Andree, a Redemptorist priest, has been appointed to the staff of Holy Redeemer College as vice president for business affairs. He replaces the Rev. Joseph Felletti, who served in this position since 1974 and has been reassigned to a parish in Baton Rouge, La.

A 1965 graduate of the former Im-

maculate Conception College in Oconomowoc, Wis., Andree holds a master of divinity degree and an master's in religious education from Mount Saint Alphonse Seminary in Esopus, N.Y. Both degrees were conferred magna cum laude. He was ordained to the priesthood in 1968.

Prior to joining the HRC staff, Andree was prominent in Catholic retreat work. He served as director of the Villa Redeemer Retreat House, Glenview, Ill., for four years until being named, in 1976, to found and head the Sacred Heart Spiritual Growth Center, Rolling Meadows, Ill. He held this post until coming to the college.

Appointed national youth moderator of Retreats International in 1973, Andree served in this role until 1980. He remains a member of the executive board for the organization.

Andree, a native of Detroit, is the second oldest in a family of 12 children. His brother, Dan, is also a Redemptorist priest. His sister, Louise Marie, is a nun with the Holy Cross Congregation. Tim, the youngest of the Andree children, is the starting center for the University of Notre Dame basketball team.

They are the children of Mr. and Mrs. John Andree of Farmington, who are members of Our Lady of Sorrows parish. They live at 23740 Ely Court.

The Rev. John Andree

## Cable conference is held at Orchard Ridge

A Cable Television Utilization Conference will be held at the Orchard Ridge Campus of Oakland Community College Thursday, Jan. 21.

Beginning at 3:30 p.m. in H Building, the educational potentials of cable television will be highlighted.

Representatives from United Nederland, Omnicom and Metrovision will lead the discussion. The three compa-

nies are currently competing for the Farmington-Farmington Hills-Novici cable franchise. A multi-image slide show describing historical perspectives and current cable technology will also be shown by United Nederland. The conference is free and open to the public.

For more information, call Dr. Doidge at 476-9400, ext. 352.

## CUT YOUR TAXES

## AND HAVE A BUNDLE WHEN YOU RETIRE YOUR NUMBER.

You don't have to be a Hall of Fame to retire with a bundle. An IRA, Individual Retirement Account, from D&N gives you a big tax break every year. And a sizable supplement to your Social Security when you retire.

You can deduct \$2,000 from your taxable income every year and put it away in a tax-sheltered IRA. Your money accumulates tax free until retirement.

The earlier you start, the more money you'll end up with. But even if retirement is only five or ten years away, you can still build up a bundle.

Anybody who works can, and should, have an IRA. You're eligible even if you have a pension plan where you work. If you're a two-income family, you can deduct \$4,000 a year and build up twice as much. If not, you can contribute \$250 extra for a non-working spouse.

We can show you what an IRA can do for you. And help you choose the certificate that's right for you... fixed or floating rate, or a combination. Get in touch with a D&N IRA expert today. So when you're ready to retire your number, you'll have some big numbers to play with.

Number of years to retirement	11%	12%	13%
10	\$ 37,123	\$ 39,309	\$ 41,629
20	142,630	161,397	182,940
30	441,826	540,585	662,630
40	1,291,653	1,718,285	2,290,972

Based on annual deposit of \$2,000 at the annual yields listed. Substantial penalty for early withdrawal.

## Do you have batts in your attic?

## You can't afford not to!

We're speaking of Johns-Manville fiber glass batts, of course—insulation that's pre-cut into handy 4' or 8' lengths.

That makes it easy to work with in close quarters when you're adding attic insulation.

Another nice thing about Johns-Manville fiber glass batts is that they come high-compression packaged in a bag that makes them easy to handle. For instance, there's a full 120 sq. ft. in every bag of 6 1/2" thick (6 1/4" in some locations) R-19 15" batts.

Summer or winter, energy experts agree that proper insulation is the foundation of any homeowner's energy conservation program.

Good reason to put batts into your attic this weekend. For excellent prices and immediate availability, see us!

We feature energy-saving, money-saving insulation by Johns-Manville.

Savings vary. Find out why in the seller's fact sheet on R-Values. Higher R-Values mean greater insulating power.
