Andy Kile (left) and John DiCecco, apprentice cooks at the Golden Mush But.

To F US have seen those forces fast-food burgers going down a conveyor belt. To F us have seen those folden Arches. But seriously, Chef Millos is the Cook of Cooks. As the enly master cheft in feedled Mushroom two years at Their apprenticeship began six montl of Cooks. As the enly master cheft in the cultinary arts. "Hold the pickle" "As we watch the pickle is a contemporary art, mastered by human beings behind closed doors. John DiCecco and Andy Kile, two apprentice cooks at the Golden Mushroom in Southfield, step out from behind the doors to reveal what the life of a cook is like in the fast lane. "There's no nine-to-five type of shift here," DiCecco said. "You work until you get the job done. If you have to prepare a certain amount of dressing, then believe me you dorn punch out until you have to prepare a certain amount of dressing, then believe me you dorn punch out until you have that dressing. "WORK 6-10 hours a week without getting paid because I didn't finish the program." "WORK 6-10 hours a week without getting paid because I didn't finish the program." "WORK 6-10 hours a week without getting paid because I didn't finish the program." "WORK 6-10 hours a week without getting paid because I didn't finish the program." "WORK 6-10 hours a week without getting paid because I didn't finish the program." "Of course the course of the program of the two months, when the program is the program of the two months, when the program is the pro

work.

"Of course, it's up to you if you want the break. But when you're in a rush to finish at a set time, it's best to skip the break."

break."

A little different angle on fast-food, wouldn't you say? Human machines with no assistance from a conveyor belt. The engine that keeps DiCecco and Kile running is Master Chef Milos, a man who has given the Golden Mush-
