Camp Wanna-Read-a-Book

To encourage kids to read, Farmington Community Library is sponsoring a summer program called "Camp Wanna-Read-a-Book." Youngsters Stewart Appibbaum (left), Julie Stockel, Robert and Elizabeth Benson gather around volunteer Sandy Donlon who

reads them a story while Diny Sharp observes the scene. Games, T-shirt iron-ons and coupons from Burger King are available to participants.

Power attic ventilation makes the difference year 'round!

45.97

Power Attic Ventilation is the practical way to ensure a cooler, more comfortable home during the summer months when attic temperatures can build as high as 130° or more. By reducing the temperature of the attic, less heat penetrates the living area, and the home stays more comfortable. In air conditioned homes, reduction of the attic heat allows the cooling unit to perform more efficiently and can result in operating savings that will actually conserve electricity while decreasing wear and tear on the air conditioner.
