
1983 Jeep

The newest CJ-7 Jeep is offered in four trim packages: base model, Renegade, Laredo and Limited, as well as the Scrambler SR package. Available as an option on the base and Scrambler models is a refined 4.2-liter six-cylinder engine. The engine's compression ratio has been increased to 9.2 to 1, while a fuel feedback system and knock sensor have been added to improve performance and fuel efficiency.

Driveway check-ups quicker with booklet

A free folder desinged to help car owners keep their vehicles in good condition at minimal cost and time has been published by the Automotive Information Council, based in Southfield.

Called "Give Your Car a Driveway Inspection," the folder lists inspections that should be made once a month, needing only a few minutes of time.

It covers items to be checked in the engine compartment and on the exterior of the car.

The foldr points out that today's greatly lengthened maintenance intervals cause some motorists to forget the proper inspection time. that means many cars are being neglected. This is compounded because so many motorists are using self-service gasoline stations.

"The cars of today have unsurpassed reliability, which is another factor causing the motorist to overlook proper maintenance," the folder says.

"But no mechanical product can go forever without care, especially one as complex as an automobile.

A typical car has about 15,0000 parts, 5,000 of which are moving parts.

"Without peopwe care, something is going to have a premature failure."

Single copies of the folder are available without charge by sending a stamped self-addressed envelope to Automotive Information Council, 28333 Telegraph, Southfield 48034.

Folders also can be ordered in quantity at $6 per hundred copies, including UPS delivery.

Space is provided on the pack page for an organization's imprint.
