A home of your own...it's a lot more than a roof over your head.

Is tomorrow a better time than today to buy your home? The fact is, the better time is right now. Current home prices are high, and so are mortgage rates. But consider that the value of housing in the 1970's appreciated at the rate of 9.2% a year. And when you add in the increasing demand for housing, the shortage that now exists, and the rising costs of land and materials, it's possible the figure could be even higher in the years ahead. With an investment opportunity like that, there's no time like the present. To find out more, talk to only one person to see. A Realtor can furnish you with good ideas on down payments and financing, and answer all your questions about real estate.

Besides being the largest purchase you'll probably ever make, a home of your own represents a lot more than a roof over your head.

It's living in a neighborhood of your own choosing...having access to good recreational, health, and educational facilities...and having a hedge against inflation.

When you own your own home, its value will increase...as much as 10% in the coming year, experts are predicting. For people who don't own, it's the cost that will be going up.

To find the home you want, talk to an Observer & Eccentric area Realtor. Realtors belong to the National Association of Realtors - a group of real estate professionals working to reduce inflation and mortgage interest rates so more Americans can become home owners.

Fight inflation with a home of your own. Call a Realtor today.
