# Trenton Ends Plymouth Streak; Triumphs, 4-3

Happy days...that's what they've been singing around Plymouth High. The baseball team has been doing great guns.

After winning five tuneup games into row, the Rocks opened their bid for Suburban Six League honors by dumping arch-rival Livonia Bentley, 10-4. Some lusty hitting, plus excellent pitching in the clutch by Jon Cederberg, who now has a 4-0 record, a complete the speedy getaway in league play.

Cederberg was hit fairly hard - giving up 11 sate-the label of the had to be. In THE MEANTIME, his mates jumped over Ken Ockerman, making it possible for Cederberg to coak in at the finish with three walks and seven strikeouts to this credit.

One had better believe that the Big Perfect a will have quite a bit to do with the success of Detroit area race tracks this year.

For instance the DRC had one winner of almost \$53.000 on Wednesday when the handle for the Hazel Park trots was \$903.000 and that for the thoroughbreds at the Livonia plant was only \$820.000 and that for the thoroughers that the mutuel handle for the two operations was so close. It could be an indication that interest in harmess racing is up and in flat racing is on the wane.

Be that as it may, the DRC wagering source to \$870,000 . That's quite a difference in one day but just wait until the trotters have a boxen price on the Big Pand the interest will turn in that direction almost overnight.

There isn't any question that the Big P has been a major factor in the upsurge at Hazel Park but it also is a sad commentary that officials there have decided to change the format and allow a race in between for exchange of tickets.

between for exchange of tickets.

We recall earlier in the Season when Hazel Park General
Manager and efficiency expert,
Harold Duris was quoted as
saying "the success of the Big
Perfecta is due to the fact that
holders of tickets must exchange immediately on the
next race."

Which leads one to wonder
why the sudden change of
mind once the DRC meeting
opened. The Big P was on the
fifth and sixth races to start
with and now it is the fifth and
seventh.

And that brings up the point
that it now is following the pattern of the Twin Double which

finally was abolished because of the difficulties that cropped out over purchase of exchanges during the interim allowed to turn the tickets in on the second half of the Twin.

Those who follow the reaces closely have vivid recollection of the second half of the Twin.

The Commissioner must have granted permission for the change in the format-perlags he isn't aware of the doings of the "Fat Man." At the time the "Fat Man" was the topic of a television show in the east and numerous articles in major magazines.
