

Age-old art forms

Japanese-style kimono made by Ann Yagi of Milford and graphics by Masao Tsuchiyo are part of the June show at Galerie de Bolcourt, 250 Martin, Birmingham. Yagi, born in Japan, translates one of Japan's most functional art forms into comfortable, beautiful, contemporary clothing. Some of her works are quilted, lined and are done with her own silk screen designs. Gallery hours are 11 a.m. to 5 p.m., until 9 p.m. Thursdays during Concerts in the Park.

Cranbrook gardens, house invite visitors

There will be "Free Friday" at Cranbrook Gardens 10 a.m. to 5 p.m. Friday, June 24 for all those wishing to experience the natural beauty of the 40 acres of gardens, towering pines, outdoor sculpture and streams.

"Free Friday," a first of its kind invitation, designed as an introduction to the internationally renowned gardens, extends to all age groups eager to sample nature's bounty.

Visitors will be invited to stroll amidst poolside, terraced and sunken floral gardens as well as woods, a lake, ponds, sculpture and an outdoor Greek theater and a secluded Oriental garden.

June is the peak month for flowering shrubs, dogwood, rhododendrons, azaleas and peonies. Also bursting with color will be roses, lavender, mar-

guerita and varieties of daisies.

Regular summer hours for Cranbrook House tours are 2-4 p.m. Sundays beginning June 26 and continuing through July and August except July 3.

The majestic country home, belonging to George and Ellen Scripps Booth and their five children, was designed by the famous architect, Albert Kahn in 1908 with additions in the early 1920s.

The house is open to groups of 10 or more weekdays. For information, call 645-3149.

Admission is \$2 for adults and \$1.50 for students and senior citizens.

Located at 380 Lone Pine, Bloomfield Hills, Cranbrook House, namesake of the Booth ancestral town of Cranbrook, Kent, England, is a part of the Cranbrook Educational Community.

A Mobius solid sculpture will be installed at the Detroit Science Center this summer and will serve as an educational as well as aesthetic attraction.

A one-sided surface which has two sides is called a Mobius strip. The solid circular form has two sides and two edges with a hole in the middle.

A grant from Michigan Council for the Arts will enable the piece to be built and installed on the Science Center grounds at Farnsworth and John R. Designed and built by Steve Veresh, exhibit coordinator, the Mobius Solid will be made of Fiberglass.

Mobius strip to be installed

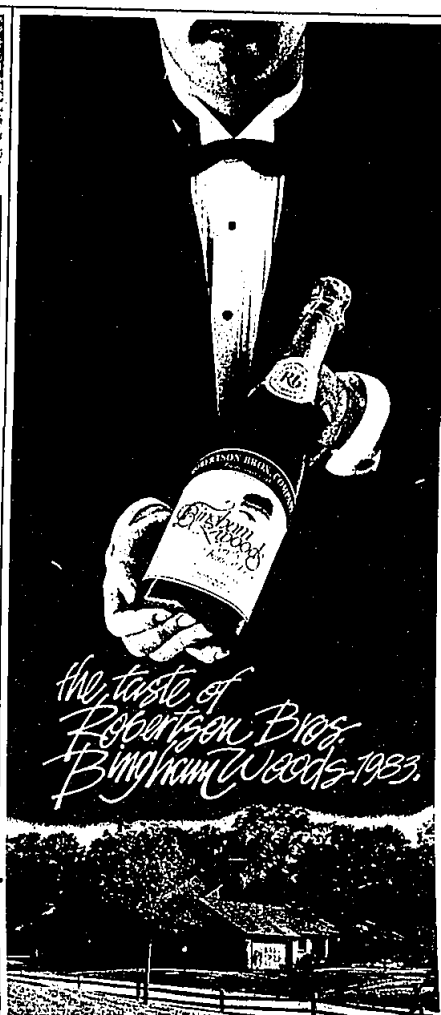

It's relaxing.

It's fragrant.

It's crisp.

It's inviting.

the taste of Robertsons Bros. Bingham Woods 1983.

Robertsons Bros. will sell no condominiums before their time. It's time.

It's invigorating.

It's enjoyable.

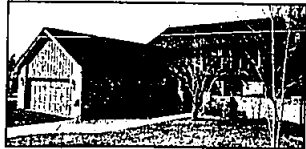

It's beautiful.

Priced from \$139,900.
