

### Solar sunroom

Primitive Encore ceramic tile by American Olean catches the sun's rays and transmits the heat to a rock bed below which serves as the thermal mass in this passive solar design. The tile's ability to conduct heat moves the warmth to the rock bed so it never feels hot to the touch. The accumulated heat is then re-leased back through the tile to warm the room as sunlight diminishes.

## See woodburning efficiency in action

Before you buy a wood stove take a look at Treemont. Come in and take a look at our Treemont while it burns. See Treemont's unique and impressive standard features, while they work!

Try our shaker grates and ash pans — clean and neat. Test our smooth operating primary and secondary air induction systems — powerful. Feel the pure radiant heat efficiently converted into forced air heat — quiet and direct. See our gently arched window and brass appointments — elegant charm for any decor.

Come in today. Once you've taken a closer look, you'll know why Treemont has come to be known as the "Intelligent Wood Stoves"!
