THE BLUE DAY

Before the coming of the Electric Washer, one day a week was dark and dreary, no matter what the weather. Home routine was disorganized, dinner was late, the good housewife was fagged out, and the family was uncomfortable.

Now the family washing is done quickly, easily, and with no longer a labor; it's a mere matter of minutes. Let us show you the workings of this time-saving appliance. It costs but a few dollars, and you can buy it on very easy payments.
