

Be SURE It's Safe

A safe investment always pays.
A speculation pays just often
enough to make it attractive.
That's why it's unsafe.

But it is hard for the average
person to tell the difference
before he parts with his money.

Unless you can afford to gamble,
let us first investigate
thoroughly every proposition
offered you. We will gladly give
you, without charge, the
benefit of our long experience
and investment knowledge.

Consult us BEFORE you invest.
