

NEW EQUIPMENT

The rapid growth of business in all departments of this bank has made it necessary for us to install a Burroughs Ledger Posting Machine of the latest type so that we may continue to give to our patrons the prompt and efficient service they have learned to expect from this institution.

We take pleasure in calling attention to our financial statement which appears elsewhere in this issue of The Enterprise.

Time to Save Money!

Some folks subscribe for a farm paper, a woman's magazine, a radio publication and a fiction magazine. But

The COUNTRY GENTLEMAN

for only \$1.00 a year—less than two cents a week—combines all four features that those folks are paying at least \$6.00 for. It's four magazines in one!

Big farm news of the United States and the world at large; national and state politics; new ideas on selling at a profit; cooperative organization; money-saving crop methods; a woman's department that is the only woman's week; how the country can be made a better place to live in; a regular radio department; serial stories that will sell later for \$2.00 in book form, by such authors as Zane Grey and Joseph C. Lincoln. A corking good short story every week! May I send your order, now? I'd be glad to.

You Can't Get More For a Dollar!

Firestone

LEADERSHIP

Firestone Leads on Speedway with Five Record Breakers

When the race driver selects his tires he does so realizing that his life and chances for success depend upon them. It is significant that all of the ten money winners in the Indianapolis race were Firestone shod. Firestone, using gum-dipping and other special processes, has developed tires to such a high degree of efficiency that at Indianapolis, May 30th, the following drivers broke the world's record for 500 miles over this brick track, making many rounds at over 100 miles per hour. Never before were tires put to such grueling service, where it was necessary for every ounce of rubber and every fibre of fabric to work in perfect unison with every other part.

Driver	Time	Miles per hour
Joe Boyer—L. L. Corum	5:03:23.51	98.24
Earl Cooper	5:06:47.18	97.99
Jimmy Murphy	5:08:24.39	97.27
Harry Harts	5:10:44.29	96.65
Bennett Hill	5:11:07.00	96.48

Leadership in Everyday Service

Millions of motorists are profiting by the lengthened service of Firestone tires. Scores of unsolicited testimonials emphasize the long mileage Firestone Gum-Dipped Cords deliver—which builds leadership in service, safety and economy.

Leadership on Cabs, Buses and Trucks

The largest taxicab companies in the five largest cities in the United States use Firestone Gum-Dipped Cords exclusively. One fleet alone, the Yellow Cab Co. of Chicago, uses over one-half million tire miles per day.

Firestone for years has been first to develop tires and rims complete which would meet the heavy trucking loads, great strains and demand for traction. By originating and carrying forward the Ship by Truck movement, and establishing Ship by Truck bureaus in all large cities, Firestone helped to speed up highway transportation and reduce costs.

Balloon Tire Leadership

Firestone's latest contribution to motoring is the low air pressure or Balloon Tire. This, the original full-size Balloon, was made practical by the special Firestone Gum-Dipping process, insulating every fibre of each cord, adding great strength and stamina. Firestone has also simplified the application of full-size Balloon tires to your present car by designing a special unit consisting of tires, tubes, rims and spokes applied by any dealer at a very low cost.

Leadership Against British Rubber Restriction Act

Attacking the unsound and uneconomic character of the British Rubber Restriction Act limiting the exportation of rubber from the Far East, Firestone was the one large tire manufacturer to take up the cause for the car owner. Soon after the agitation was started for America to produce rubber under its own control, the cost of crude rubber was reduced and the prices brought back to normal.

Dealer Leadership Through Tire Quality and Service

Through Firestone's dealers you can obtain organized service and the soundest value on the market, whether you need a Ford V-8 or a 10-inch truck tire.
