Community Spirit

Through the mist of the past, filling the pages of history is the Warrior Prince, while woven into the romance and fiction of the centuries, is the Merchant Prince. Great was the Warrior Prince, but greater the Merchant Prince.

Now comes the Community Spirit, to whose softening influence, ruthless individualism gives way and mutuality of interest finds place.

We, a local industry, are playing the role of this Community Spirit, by offering to buy your grains and sell you back the products made therefrom.

HOUSEKEEPING AND LEISURE

It used to be a common expression—referring to household duties—that woman's work was never done. The saying was true enough, ten, even five, years ago. It is not true of the housekeepers of today; at least of that great number who let electricity do their heavier and most tiring tasks. Nowadays, the washing and ironing is done in one-third the time required by the old-fashioned hand method—by electricity. Dishes may be washed, rinsed and dried without soiling the hands and with less chance of breakage to the most fragile articles—by electricity.

Dust and dirt may be removed from carpets, upholstery and clothes with a minimum of time and labor—by electricity. A score of other tedious and tiring tasks may be done with immense saving of time and effort. No longer can it be said that women's work is never done. On the contrary her work is done quickly, pleasantly, with lots of leisure left over—by electricity.
