And Lower State Taxes!

These official figures from the Oakland County Treasurer's Office show the reduction his efficient administration has made in Oakland County's state tax during the past four years:

"Consistency is the hobgoblin of little minds." Or in other words don't stick to your mistakes as though you are proud of them.

Luther D. Allen

In placing myself before the people of Oakland County as a Republican Candidate for the nomination of

County Road Commissioner.

I wish to take this opportunity of making known the platform on which I base my candidacy.

I have been associated with conditions in Oakland County for many years—in fact all my life, for I was born in Bloomfield township and I am fully conversant with the needs of the various parts of the county.

As chairman of the Oakland County Board of Supervisors I am able to view the County as a whole and believe in its great future.

I am in favor of spending enough money on the roads of Oakland County to insure safe and rapid travel for all.

I am opposed to any kind of makeshift program of maintenance of our roads.

I believe that the matter of absolute safety in travel is of paramount issue. In Oakland County we have many gravel roads; some of them are good enough to last for many years; but I am in favor of building concrete highways that will last for many years without expensive maintenance.

I believe that all taxpayers of this county are entitled to a square deal for their money.

If you believe in a constructive program consistent with common sense, I will appreciate your support at the primaries Sept. 9.

LUTHER D. ALLEN.
