Don't Burn Blackened Lamps

Our customers are reminded that Edison Service includes free lamp renewals.

The approach of long winter evenings suggests the wisdom of changing lamps that have become blackened through long use, or that are burnt out for new ones.

Remember, a blackened lamp consumes practically as much current as a new lamp and may give only half as much light.

A Gift That Is A Compliment
In a gift that you receive you can sometimes see yourself, as others see you, and the view is not always flattering. It may be a jazz record, or a gaudy tie, or a book that you would hate to have found on you if you got bumped into to dreamland. And you can't really blame the giver. Knowing you well he concludes that you crave that sort of thing. On the other hand his gift may convey a subtle compliment—a gift of the Companion for instance. It is a tribute to your good taste, to a certain idealism he has perceived in your make-up to the impression you give that life is real and earnest and not merely a game of skittles. You may be sure that anybody who thinks slightly of THE COMPANION as a gift is himself making life a game of skittles—and very little else.
