

Matching Action to Thoughts . . .

BOTH FARMERS AND THIS BANK ARE DOING JUST THAT.

If farmers were lacking in acts, or if you were lacking in foresight and the insight into the country's needs, just imagine what a fix this country would be in.

But to the glory of the farmers stands the fact they put action behind their planning—and thoughts of progress ahead of each year's work. So the nation's greatest industry advances. We are proud of this privilege of cooperating with the farmers of this community—an honor, we feel, won by our helpful, interested understanding of their banking needs, and our ability to meet them fully.

STATE HEALTH OFFICER VISITS WALLED LAKE

Fear of a smallpox epidemic caused local school and health authorities to call on the state department of health for an inspection, this week. In response to this request Dr. Smith visited this district on Monday. He called on all cases and pronounced all of them to be chickpox. In the meantime arrangements had been perfected and carried out to vaccinate all school children and as a result nearly all of them have been vaccinated. This was a proper measure and will insure Walled Lake against a smallpox epidemic. —A Friend.

George Stone and his five-piece orchestra will do the calling Friday evening at O. E. S. party.

COMPLETE OVERHAULING

Many motorists are fast learning the value of having their cars thoroughly overhauled at regular intervals.

Fewer repair bills, better mileage and longer service repay you many times the price of overhauling.

GIVE YOUR CAR NEW LIFE

Don't wait until your car stops running before putting it in the shop. The more you run it after it commences to get "balky" the more harm you are doing it, and the more it will cost to have it put in good condition again.

We can do a thorough job—and do it quickly. Now is the time.
