"What you don't know can't help you!"

Hi, I'm Dr. Dan Laframboise

Did you know that becoming certified as a chiropractor requires a minimum of six years of highly specialized college training?

Today's Doctor of Chiropractic must complete 4,485 hours of classroom instruction and a rigid chiropractic board examination before earning a license. In most states, continuing educational seminars must be completed for annual license renewal.

In addition I have completed courses in Roentgenological studies (x-rays) and analysis. I hold a Bachelor of Science and a Doctor of Chiropractic degree from Palmer College and an A.C.S. degree from Palmer Junior College, Davenport, Iowa. Post graduate studies include advanced Gonstead analysis and adjusting, Thompson adjusting technique, Pierce-Stillwagon 5th Cervical analysis and technique. In 1960 and 1982 I was honored to be named President of my State Association, "Michigan Fellowship of Straight Chiropractors," as well as a representative to the "Federation of Straight Chiropractors Organizations in Atlanta, Georgia. I am also an extension faculty member of Sherman College of Straight Chiropractic. To further my continuing education, I have received special training since college in Chiropractic Roentgenology and various adjusting techniques from such educators and leaders in the Chiropractic Profession as, Dr. Clay Thompson, Dr. Vern Pierce, and Dr. Larry Trexell. I have visited a number of other Chiropractic Clinics to study their methods and procedures including: Five Points Chiropractic Clinic, Davenport, Iowa; Springfield Road Chiropractic Center, Spartanburg, South Carolina; and the world famous Gonstead Chiropractic Clinic in Mt. Horeb, Wisconsin.

Additionally, I devote four days every month attending a nationwide seminar in Atlanta, Georgia to stay current on the latest chiropractic advances.

This is the kind of training and professionalism I offer you. If you have hesitated visiting a chiropractor, perhaps you didn't know that chiropractors go to such great lengths to continue their education and provide you with the latest techniques and the most qualified service. So, you see, what you don't know, can't help you. Call me today and let me help you.

Did you know that the conditions most commonly seen by chiropractors are:

Headaches
Back Pain
Arm Pain
Hip Pain
Neck Pain
Wrist Pain
Shoulder Pain
Pain down legs
Dizziness
Numbness
Muscle Spasms
Sciatica
