

Youth orchestra

Youth are invited to join an orchestra that will be in session this spring and summer as part of the Enrichment Short Course series offered on Orchard Ridge Campus, Oakland Community College. The course is specifically geared for students 10-15 years and will be taught by Gloria Gardin. The spring course will meet Thursday evenings, May 10 to June 14. The summer session is scheduled to run July 5-26. Gardin (at right) practices with her children, David, Izirli and Shoshana. Inquiries may be made by calling Sylvia Burtrum on campus, 471-7695.

Blood-pressure readings offered free at Botsford

Hypertension, or high blood pressure, is the most serious public health problem in the United States today. With 28 percent of Michigan's adult population being hypertensive, only one sixth of these people actively seek treatment. In response to the problem, Botsford General Hospital's Health Promotion Center offers a hypertension screening and follow-up program in cooperation with Michigan Department of Public Health without charge. A series of three blood pressure readings are taken during the initial screening. Any person found to have

sustained blood pressure evaluations at that time are referred to the physician of their choice. Persons with borderline readings are asked to return for a secondary screening where again they have their blood pressure taken. If their blood pressure remains questionable, they are referred to the physician of their choice.

The Health Promotion Center dedicates energy to client follow up. The staff believes the follow-up procedure is an indispensable component of their hypertension control program.

School for gifted sets open house

Gibson School for the Gifted invites parents, educators and the curious to an open house from 9:30 a.m. to 2:30 p.m. Tuesday and Wednesday, May 15-16 to view a typical school day in action. The school

is located at 12925 Fenton, Redford.

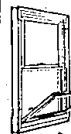

All classes, ranging from pre-kindergarten through middle school, will be in session.

Jewelry Gittings
by Allen DuQuet
Much of the world's gold is produced in South Africa's 45 gold mines, some going as far as two miles deep. They employ 250,000 people yet the total yield is only 25 million fine ounces...about 760 metric tons of gold per year. Considering its scarcity, as well as its beauty and durability, gold is something of a bargain. Our gold jewelry includes many lovely pieces.
