

cable connection

Editor's note: With the debut of the Southwestern Oakland Cable Commission's first community-access channel, a schedule of programs will appear in every Thursday edition of the Farmington Observer. Accompanying the weekly schedule will be an article written by Lark Samouelian, SWOCC executive director, about community access.

By Lark Samouelian
Special writer

Community-access channel 12 is being programmed for you. How many times have you watched television and wanted to comment or become involved? Now is your chance. Let us know what is on your mind.

- Would you like to see a program repeated?
- Do you enjoy a particular personality?
- Did you have a great idea?
- Would you like to take an equipment workshop?

• Do you want to respond to a request for information for a particular show?

If any of these questions have sparked your imagination, send your ideas and requests to SWOCC, 23500 Liberty, Farmington. If you are referring to a particular show, please include the show's name.

It is important that you are aware of the continuing growth that is taking place in our communities of Farmington, Farmington Hills and Novi. All the shows on channel 12 are reaching at least these three cities. Consequently, your constructive and positive support is needed.

If you do not like a program, please consider if it would be helpful to offer some new ideas. If you don't favor a personality, or agree with the show, that is your prerogative rather than criticism.

As you watch program quality improve, please volunteer your services to help us in our endeavors or become a producer on channel 12.

Your interests and ideas are important. Consider what a different dimension appearing on television could add to your life.

Jewelry Jottings
by Allen Duquet

The longitude of a ship at sea can be determined by comparing the exact time (from the stars) with the time at the home port, as shown on a sea-going clock. Such clocks must be accurate to within 3 seconds a day. Even if they never navigate a ship, anyone will appreciate the beauty and accuracy of our fine watches. They make excellent gifts for June graduates.
