

Mary Ann Sanford makes over 20 critical checks on seat belt systems in GM cars.

She is only one of over 1,800 GM people who make more than 6,000 safety inspections on GM cars built in America.

Checks are made on many things from seat belt retractors to anchor bolts. Latch buckles. Warning lights and buzzers. Every seat belt in every car gets checked.

We do this because it's all part

of building safer cars. That's important to you. And to us.

We believe in taking the extra time, giving the extra effort and paying attention to every detail. That's what it takes to provide the quality that leads more people to buy GM cars and trucks than any other kind. And why GM owners are the most loyal on the road.

That's the GM commitment to excellence.

**Safety
is a full-time job.**

Nobody sweats the details like GM.
