From archeologists, tortillas are a part of a unique world of cooking that originated in Mexico. It started with the marriage of corn, chilies, tomatoes and beans from the Aztec and Mayan Indians, with beef, rice, wine and others from Spanish conquerors.

Today, so many Americans have come to love this style of cooking. You find it in taco stands, even at baseball games. But fast food is a poor replacement for the outstanding flavors brought to us from authentic Mexico.

We, at Chico's make our food from nothing but the finest and freshest foods available, such as real sour cream, olive oil and natural flavors. Our tortillas are made fresh daily with no preservatives, and our beef is 100% pure beef product.

We know our customers will find satisfaction in our food, service and cleanliness because our credibility is our success. At Chico's, our customers always come first. Because of that, we know you'll be back to us.

Come join us for those special dining occasions with friends and family. We're closer than downtown, and we offer that warm, personal service that you deserve.
