## anguage and culture classes set at institute

The culture of a new land is discov-ered in International Institute's Lan-guage classes beginning Monday, Sept. 10 for 10 weeks. Spanish, Italian and German classes will be given Monday and Wednesday, Japanese, Arabic and French classes are designed to teach the language for fun, with special empha-tis on the culture of these lands. Classes are taught by antive-special exploring their mother culture through filling, visual aids and conversation. An authentic ethic feast, an evening of special activities and 36 hours of class-room instruction are included for \$150 tuition.

dedicated to making the classes a ful ethnic enrichment experience," said Mary Ball, executive director at the lo-silitute. "They give students insight into tradition and enricons that an academ-ic language class cannot offer."

Classes are limited to a maximum or 15 and a minimum of eight students, to insure that a small group learning on vironment will prevail.

Register by sending a minimum first payment of \$20 to Cora Lee Sterling The International Institute, 111 East Rirby, Dertoit 48302. Make checks pay-able to the International Institute.

The last day to register is the secon class meeting. For inquiries conta Sterling at 871-8600 Thesday Wednesday during business hours.

## Polish studies offered

"A History of Polish Art," offered by Instructor Marian Owczarski, artist-in-residence at the college, surveys the ethnic art from the pre-Christian era to the present day "A flistory of Polish Art," offered by flistory of Maina Owcarski, artistio-residence at the college, surveys the child carl from the pre-Christian era to the present day. "A Survey of Polish Literature in Calling the registra at 682-1885.

English Translation" takes the student from the Middle Ages through Classi-cism and Pre-Romanticism periods.

"Polish History: 966-1759" is in-structed by the Rev. Engene Edyk, as-sociate professor of Polish Studies, who teaches the thistory of the Polish State from its origins to its dismemberment and absorption by foreign powers in the 16th century.

1 Burlingame north side between Frank and Bates.

Have you been for a walk lately? You don't always have to stroll around the perimeter of your block. How about jumping in your car, then pick an area, park your car and atroll in a new place. Your columnist lakes every morning before her breaktast. Recently 1 strolled east on Townsend and admired the purple house. There are several landscape lessons to be ob-served at this location. The use of orna-mental trees to capture a contrast with the color of the home is one. The quality of the arbite forces neale On the northeast corner of Brown and Chester there is an old structure which has recently been refurbland and it has many landcape ideas to of-fer. . The quality of the white fence encir-cling the property enriches the total splendor. You can't pick up many les-sons from this fine landscaping by whizing by nour car. . In conclusion, may I say the purple house is regal. It sets the tone for the entire downtown redevelopment of old-er bomes.

AS YOU continue west on Brown Street, on the north side there are many condominiums with attractive, individual entrance areas. Each en-trance has its own character,

If you have occasion to have leisure time in Chicago or plan to travel north-ward on the highway to Milwaukee or Minneapolis, you might enjoy stopping

at the fabulous Chicago Horticultural Society Gardens.

at the Holiots Checky Hortcentural Society Gardens. Here on this accreage is a beauty spot worthy of a three-hour stroll. There is a place to get refreshments on the grounds. The location is in Giereco, III, a suburb of Chicago. There is some-thing there to interest people of all ages. Gardening is an enriching experience if you approach it with enhusiasm. It ian't all work, it is an adventure. Your columnist has traveled all over the world and been invited on private properties as I show my love of garden-ing. In the late fail months, New Zea-land is tops, but we must not bypass

GARDENING is a growing experi-ence for the home gardener. It is so gratifying to be able to call plants by name and understand how they grow. It is easy to take cutlings and place them in your home lab and experiment. May I recommend to you the publi-cation, "Propagation for the Home Gardener, Brooklyn Bolanical Garden, 1000 Washington Ave, Brooklyn, NY. 11125, \$2.35 plus 80 cents postage and handling.

other areas of the world which have re-verse seasons to Michigan.

handling.

The book gives winter and summer projects and shows how to take cutt-ings from trees, shrubs, everyreens, etc. For instance you can take a liby bulb, peel the bulb, set it in some soil and each portion will create a new butb.

buib. You can cut a hyacinth bulb (the in-side of a buib is like cutting a large onion horizontally), and a new bulb will form at the base of each scale.

ents, which may, or may not be taken for credit.
