

The aerodynamic wedge-shaped design of the Toyota's new MR2 sportscar will be unveiled at the Detroit and Los Angeles auto shows for the first time. This new Toyota entry includes a low slanted front end, fully retractable headlamps, sloped windshield, flush side glass and a large front air dam to deliver a smooth drag coefficient.

Ford designer William P. Boyer was lead stylist on the original 1955 two-seater Thunderbird and had a hand in designing today's newest series of Thunderbirds including the 30th Anniversary edition.

On the road or at the Auto Show,

nothing even comes close.
