QUALITY AT AFFORDABLE PRICES!

Energy Savings
Your fireplace can be an open window to the sky, losing precious heat in winter, cool air in summer. The perfect answer to sealing this energy loss is a topcrafted fireplace door from Steinhauer Enterprises. Figure 20% of your last year's heat bill as a saving right off the top. Better too... when the fire dies down, close the door and draft control. This protects against embers falling on your furniture or carpet. Also, by closing doors you conserve heat or air conditioning.

Custom Fitted to Any Opening
All Fireplace Doors are custom built at our factory to exactly fit your fireplace opening. Any size or shape can be accommodated. Two and three sided fireplaces, or any other special fireplace can be fitted with doors by the Steinhauer craftsmen.

Hand Crafted to Fit Any Size or Shape

Wide Range of Finishes
Beautifully finished Fireplace Doors can add immeasurably to any interior setting. Steinhauer doors come in all the latest decorative finishes, including Polished or Antique Brass, Polished and Brushed Chrome, Antique Copper or Satin Black. If you have a particular finish in mind, we probably have it. Check with our representative about the finish that will suit your room best.
