Ease, coloring shape choices

HIS SPORT wear is in great shape this fall with an emphasis on high energy and bold color fabricated in knit, wovens and solids.

Bright and oversize patterning in corduroy and flannel, plus plaids and bright solids are seen in casual shirting. Cotton continues to be a favorite sweater fiber companion to flannel trousers.

Brightness also sparkles on leisure wear, with bold flashes of color playing against darker backgrounds.

The big looks in outerwear slide over equally big tops and letter-sweater size knits.

Wear them over casual pants cut full at the waist with pleats or gathers. Pants that are slim at the cuff are the perfect finale to the bigger, fuller shirts in a huge assortment of shades and patterns.
