STRONG RUNNING attacks also used to be traditional in the Big Ten. Not any longer. Three conference quarterbacks — Jowa's Cluck Long, Illinois' Jack Trudcau and Purdue's Jim Everett — are all highly regarded pro prospects. All three are capable of picking apart the best secondaries. "They all score me," said Cochran. His opinion of conference receivers was the same: "They're all

big, all good. If I had to pick one (as the best), I'd say David Williams (of Illinois), definitely," Williams set an INCAA record with 101 catches has tyear. Twelve of those came against U-M. Cochran figures Jokisch could rank among the conforence's top receivers. I'ven ever played against him in a game situation, and he's great un-der pressure, 'the correlawck said. "If'els go good hands and can jump." Cochran uses his size (6-3, 219-pounds) as an ad-vantage against most receivers. He can't against Jokisch, who stands 6-8 and weighs 230. And yet Jokisch's size disguises another of his latents – speed. "The lost 12 pounds," the receiver said. "I'm witcher, faster, stronger. I've run the 60 (yard dash) in 4.5. Jokisch achnowledged the "additional pressure," but said, "If you're a great player you rise to the situation.

"I have no personal goals as yet. If we get to the Rose Bowl I'll be happy, even if I just catch five balls."

Problem is, U-M probably won't go anywhere if Jokisch is limited to such a number. He's counted on for far more.
