Another in a series of informational messages concerning your phone service.

We're trying to
make things simple
for you again.

Starting with your
new phone bill.

When all those changes happened in the telephone business a while back, some things got more complicated. Including your phone bill. Ever since we've been looking for ways to simplify it, so it's easier to read and understand. And after a lot of research and listening hard to customers like you, we think we've done it.

For starters, we've cut out some duplication, so the new bill you'll be getting could have as few as three or four pages.

From now on, you'll just mail in the *Payment Page* with your payment. The *Payment Page* is the top page of your bill. We've done away with the computer card you used to have to send in. (If you pay in person you should bring the whole bill with you.) The *Total Amount Due* will be easy to find because it's shaded in a box on the *Payment Page*.

You'll find the new appearance and wording of the bill help make it a whole lot easier to understand.

We think you'll agree that a confusing phone bill is just one more little problem none of us wants to muddle through. That's why we hope our new shorter version will be easier for you.
