The facts about cataracts  
don't have to be  
blurred

It is a fact that cataracts cause many people to miss out on some of life's greatest pleasures — like taking a good look at their grandchildren. And if left untreated, cataracts can cause blindness.

At Livonia Cataract Center we see many patients who have endured clouded vision for years

because of misinformation or a lack of information about cataracts. And because they are afraid.

Because we have performed thousands of cataract removals and lens implantations, we can assure our patients that they have everything to gain and little to fear from cataract surgery.

We would welcome the

opportunity to answer all of your questions personally and to describe to you the advanced procedures we use that make cataract surgery more effective and much simpler than ever before. Call Livonia Cataract Center at 522-0805 for an unhurried consultation and a return to good vision.
