

Gold necklace can reflect the twinkling lights of the holiday season.

dresser may prefer gold with Old World charm — a pocket watch with fob, crest or signet ring or traditionally designed cuff links with coins, knots or monograms.

If his approach to fashion is more contemporary, consider a futuristic

or high-tech piece of gold jewelry. Mixed with titanium, niobium or stainless steel, gold bracelets and necklaces look especially up-to-date. A geometric-styled ring with stone accents for color would be another good choice for the non-traditionalist.

Lassale.
Double play of
light and dark.

Contrast most aptly used for maximum elegance. Lassale interprets each of these handsome possessions for both men and women. The Bracelet: grey titanium finish and gold-tone with a grey dial. The Strap: lizard, gold-tone and a black dial. Lassale. The heritage is obvious.
