TAKEOFF!
Weight Reduction Center™

AnyBODY can lose weight; but at what expense, both physically and emotionally?

The unique, 6-week **TAKEOFF!** Weight Reduction Program, authored by Gary R. Pierce, M.D., consists of small group meetings which provide supportive instruction and instill motivation. A realistic and medically sound food strategy is presented. Participants gain psychological insight into the problem of overeating. Stress management is taught in order to help individuals who overeat because of tension. Periodic computer analyses of your own body composition allow for effective monitoring of your progress.

Finally, here is a program that treats you as a human being, not as an overweight body. And the bottom line is that the **TAKEOFF!** Program really works. You will lose weight steadily and comfortably.

"If you argue for your limitations, you get to keep them."
