Blood donations help save lives

Have you ever driven by an automobile accident and wished you could help the injured people? Have you ever seen a sick child and wished you could help? Would you eagerly consent to give blood to save the life of your own mother or spouse? If you had one chance, would you help someone who needed a new heart

In order to keep on living? You can. By donating blood at one of the bloodmobiles, you are helping all of these people who need you.
Your contribution of life-giving blood can be used immediately or stored until it's needed. It can be broken down into components and used for several uses. New techniques have made your one donation count, enabling as many as four lives to be saved.
Donating blood is simple, safe, and a risk-free process requiring less than an hour of your time. Anyone who is in good health, weighs at least 110 pounds, and is between the ages of 17 and 70 is eligible to donate blood. There

is absolutely no risk to the donor of contracting any infectious disease through donating blood. A new, sterile needle is used for each donor and then that needle is discarded.
Donations are accepted at the Oak Park Donor Center, 25900 Greenfield, Oak Park, on Monday, Friday, 10 a.m. to 4 p.m.; Tuesday, Wednesday, Thursday, 2-8 p.m.; and Saturday, 9 a.m. to 2 p.m. For an appointment, call 968-2258 or 494-2851.
A Red Cross Bloodmobile will be at Botsford General Hospital, 26500 Grand River, from 6 a.m. to 6 p.m. Friday, April 25. For an appointment, call Beverly Weiss, 471-8651.
