How to recognize a quack when you see one.

Quack medical products. They're everything from baldness remedies to cancer cures. All eventually prove to be a waste of money, many actually pose a serious threat to your health. How do you distinguish a quack medical product from the real thing? For a start, if it sounds too good to be true, it probably is. Quack medical products usually claim simple solutions, miracle cures, or amazing scientific breakthroughs. Many flout testimonials from satisfied users. To be sure whether a medical product is a quack, check with your doctor or pharmacist first. Because the next dead duck could be you.
