At Sylvan we help children perform remarkable acts of courage.

Sylvan understands how tough it can be for a child who's falling behind in school. And how good it can feel when failure turns into success.

This summer, we can help your child develop the self-confidence—and the courage—to do better in school next fall. In fact, we guarantee it.

Sylvan's proven approach to learning has already helped thousands of children. In a stress-free environment of positive encouragement and personal attention, we guarantee your child's reading or math skills will improve by at least one full grade level in just 36 instruction hours. Or we will provide up to 12 additional hours at no further cost.

Our expanded Summer Program gives your child the perfect opportunity to catch up on crucial math or reading basics. So that, come September, you'll see a remarkable improvement in your child's performance. We guarantee it.

Measurement will be based on a nationally recognized achievement test for improvement in either reading (comprehension or vocabulary) or math (computation or application).
