WHAT IS THE CAPILUSTRO METHODE OF CURLING HAIR?

This instrument, an electric curling iron that emits treatment oil vapors as it curls, provides the heat and moisture for fine sets.

Used to style a finished hairdo in minutes, Capilustro can also be used on hair goods. Two instrument sizes are available. Capilustro does not need rollers, clips or dryer, thus provides a fast set. The treatment oils are available in two formulas: for normal hair and for damaged hair. Methode Capilustro is imported from Belgium.

QUESTION:

Is it true that men dye their hair nowadays? I think it is terrible. Why can't they be as nature wants them to be?

ANSWER:

Yes, it is true that men do color their hair these days, when the younger generation seems to rule, more or less, no one can afford to look his age. It could mean loss of a job. Besides, women have done this for ages.
