# Think Spring

# It's Bulb Planting Time

Mother Nature bends to extremes to her unflagging real to please everyone, From red-hot prairies of the midwestern summer to stark while of the winter mountains, there's something for everyone, But she becomes subtle in the spring and fall. That's when she is her thoughtful and creative best. Things happen in coocert as much of what begins during one season is the

gins during one season is the result of what was started in the other. Gold leaves fall to make the green grass grow -- the rains of spring work late in au-

So it goes for that dazzling spring garden of Dutch buibs. That brilliant patchwork quilt of tulips, hyacinths, daffodlis and crocus you expect next year must be readied NOW.

year must be readed NOW.

And right now, garden centers, nurseries, sed stores, etc., are bulging with a wide assortment of bulbs that will bloom next year: tulips in the myriad colors of the rainbow, yellow daffodlis, fragrant hyacinths, and that heraid of spring, the heric nexts. the hardy crocus.

the hardy crocus,

Word from Holland has lithat
this year's crop is of exceptional quality. However, the
Dutch bud growers (with the
wisdom of over 400 years of
bull growing) urge early shopping so as to take full benefit
of the thousands of varieties
available, Those who plant late

the soil is cooler at that depth
and that is what the bulb wante),

Ten solid weeks of flowering tulips are possible when varieties are chosen from each of the different classes, As one class reaches its peak, the next is just about ready to burst into bloom.

A spring garden isn't com-plete without hyacinths, They have stately beauty and an un-paralleled "fragrance of

# anywhere; as complete beds or in groups of a dozen or more (of the same color) in and among the shrubs around the house, other plants bloom.

fall, Once nestled inthe ground, flower bulbs will start developing roots until stopped by heavy winter freeze. Bulbs may be planted until the ground freezes so solid that it cannot be day, in warmer climates, bulb planting should be delayed must be forement or Document in the forement or Document in the forement of the start of DAFFOOILS

Golden daffoolis nodding in the sun are one of the long-treasured sights of spring. Install, though, consider other daffooils along with the familiar large yellow trumpet types.

Daffodils now come in a large assortment of delicative color combinations. Pluss and Immes are just two examples, in others, bright orange-eneques are contrasted by yellow or pure white petals.

Whatever the choice, be certain to safect some types that

#### TULIPS

Is just about ready to furst into bloom,
Tulips are at their beautiful best when planted in clumps of a dozen or more, One or two alone for a straight row) look lost and lonely. You can plant them almost anywhere in the garden and they will do well, whether the spot is shaded or sumy, in fact, those planted in stady areas will have a longer blooming period.

### HYACINTHS

# LITTLE BULBS

DAFFODILS

This increasingly - popular "filtito bube are garted by gardeener for their habit of entries a glimpse of spring well, ashed of the calendar, Many, will hourst into bisome rera before the last smortal has meltined, giving a spark of life and color to the wintery landscape, Their names alone indicate their contribution to the late winter garden: Snowdrop (Galanthus) and Giery of the Snow (Chienodoza), for instance,

stance.

Little bulbs are quite hardy and they take care of them-selves with little or no attention, year after year,
