### NBD's new Bi-Weekly Mortgage

# Cuts 9 years off a 30-year loan.

### Reduces interest costs 35.\*\*

## ·Builds equity almost twice as fast.

What does Bi-Weekly mean, exactly? And how does this new mortgage work? Bi-Weekly simply means you make your house payment every other week. Instead of writing out one large check once a month, you pay half every two weeks. So, rather than making 12 big monthly payments a year, you make 26 small ones every two weeks. The two extra payments make the difference, cutting about 9 years off the life of your mortgage.

The last 9 years are free? Right. This mortgage gives you the low payments of a 30-year mortgage, and is fully paid off in just 21 years. In that sense, NBD's new Bi-Weekly combines the best features of 15- and 30-year fixed rate mortgages. Because NBD requires just 10% down, the Bi-Weekly Mortgage is perfect for first-time

Suppose I sell my home 7 years from now...will I have more equity in it? Yes. With the NBD Bi-Weekly Mortgage, you build equity in your home almost twice as fast as a conventional 30-year mortgage. So when you sell your home...or if you want to use the equity in it for any purpose...the equity will be nearly double what it would have been otherwise.

And if I keep my home for the full 21 years...how much will I save? About 35%. For many home buyers in this area, that could mean sixty to seventy-five thousand dollars. To find out how much you would save, check the table below.

NBD's new Bi-Weekly Mortgage sounds interesting. But I need more details. Just call or visit one of the NBD Mortgage Company offices listed below. Our home mortgage specialists will get you the information to get started right away.
