## Heads you win, tails you win.

### Win with Michigan National investment opportunities.

Selecting the right investment opportunity is as easy as flipping a coin — but only if you do it at Michigan National Bank.

### Win by controlling the interest rate.

The high-yield investment opportunities at Michigan National put you in charge right from the start. You control the amount you earn by the amount you deposit. The more you deposit, the more you earn. Build the Michigan National MoneyMaster Certificate of Deposit and the Money Market Account offer this unique feature.

Our MoneyMaster CD goes a step further. It also provides a higher interest rate for a longer deposit. So, although there is an interest penalty for early withdrawal on CDs, there are great rates for both larger and longer deposits.

### Win with security and opportunity.

Along with control, Michigan National investments offer security and opportunity.

You have the security of knowing your investment is insured to the federal maximum. Your money is safe while it's earning interest.

**Michigan  
National  
Bank**  
Member FDIC.

And you have the opportunity to lock into a guaranteed high rate with our MoneyMaster CD. Or invest in our Money Market Account and gain a high rate and 24-hour card access to your money. You can even write up to three checks per month against the account.

### Win every way.

Whether you choose the MoneyMaster CD, the Money Market Account, or both, you have control, security and opportunity on your side.

Stop by any Michigan National branch or call toll-free for more information and current rates. You'll find heads you win, tails you win.
