PROJECT LEADERS
SOFTWARE ENGINEERS
Do you have trouble remembering the last time you learned something new?
Ctext is committed to leading edge technology in the areas of LAN's, microprocessors, text processing, and software engineering. The number and diversity of software projects at Ctext continually provide new opportunities and technical challenges.

Are you tired of working on a product that can't find a market?
Ctext delivers innovative software to eager and enthusiastic customers in the newspaper publishing industry. The overwhelming acceptance of our products has been the basis of our unprecedented growth.

Do you have high standards and an attention to detail and quality?
Do you team Ctext? We are looking for several key people to join our team of software developers who already share this ideal.

Do you take pride in your work?
Then let Ctext give you something to be proud of.
If you answered yes to any of the above questions, please consider the software development positions at Ctext.
Ctext's current projects provide many technical challenges. Expertise is required in system design, software engineering, C, OS/2, UNIX, SQL, networking, composition, typesetting, IBM PC's, SUN hardware, and Tandem hardware. We are looking for individuals who possess skills in several of these areas and who welcome the opportunity to acquire skills in several more.
Three years programming experience in C and a commitment to quality are required.
Please send your resume in strictest confidence to:
