Your fireplace puts out a lot of heat. Unfortunately, it puts it out your chimney.

A conventional fireplace is beautiful to look at. The problem is, most of its heat rises up and out of the chimney. The remedy? A WinterWarm Fireplace Insert from Vermont Castings.

With the WinterWarm, you can not only enjoy the beauty of fireplace viewing, you can enjoy all of the heat. Up to 50,000 BTU's per hour. The WinterWarm Fireplace Insert converts your existing masonry fireplace into an efficient home heating source, without losing the charm of the fire.

See the WinterWarm today. And put the heat from your fireplace where you want it. Indoors.
