## Monthly Allergy Tip

If it looks like a cold, if it sounds like a cold, if it feels like a cold...

It is not necessarily a cold at all. In October, after children have returned to school, they may develop runny noses, congestion, and other cold symptoms which can impair school performance. However, what may really be causing all their discomfort is not a cold, but an allergy. And if it is an allergy, which is not uncommon, we can certainly help!

## To FIND THE RIGHT DOCTOR, JUST ASK YOUR HOSPITAL.

The phone book has hundreds of doctors listed, but which one is right for you? Are you looking for a family doctor or do you need a specialist? What kind of specialist? Is it for a second opinion? What about the doctor's experience and Board Certification? The phone book can't help with these questions, but Huron Valley Hospital can. Our free Physician Referral Service has telephone counselors who can help you decide which specialty, if any, you need. Our counselors know all about physician office locations and hours. And every doctor in our program has been carefully screened and approved to practice at Huron Valley Hospital, an affiliate of The Detroit Medical Center. So, if hospitalization is ever necessary, you have the option of using Huron Valley, your community hospital.

When you need a doctor for anyone in the family, call the Huron Valley Hospital Physician Referral number, 360-3450. We know all about doctors and will help you find the right one.
